

Wire Rope Cutter

- ▮ For cutting wire ropes and steel wire without any burr or splaying
- ▮ Special cutting geometry and precision cutting for a clean cut without any burrs
- ▮ Cutting edge made of stainless steel

SKU: 387-190

Technical Data

| 387-190 | | |
|---------|---|------------------|
| ↔ | Length - mm | 190 |
| ↔ | Length - in | 7 1/2 |
| ⦿ | Soft wire (220 N/mm ²) copper, aluminium, plastic - cutting capacity - Ø mm | 6 |
| ⦿ | Wire rope (1570 N/mm ²) - cutting capacity - Ø mm | 3 |
| ⦿ | With opening spring | 274 |
| ⦿ | Weight - g | 270 |
| ⦿ | Packing unit | 6 |
| ▮ | Barcode | 40 03758 38719 1 |

Safety Notes

Use tools for indicated purposes only.
Before using the cutting tools please wear body protection such as safety mask, safety glasses and hand protection.
Beware of wire ends flying off!

General Information

Wire Rope Cutter and Sleeve Crimping Pliers

Our wire-rope cutters guarantee clean cutting of wire cables with no fraying. Whether it is ratchet or lever-assisted operation you need – there is a tool designed for the task you have in mind! That way, you save valuable time by working more efficiently and can use the time saved elsewhere. The crimping pliers make it easy to attach steel sleeves effortlessly.

Connecting to the future

Solar energy is a clean alternative source of electricity. To make sure it is also a safe source, junction box and switch cabinet wiring has to be properly stripped, crimped and connected up. Using NWS wire stripping and crimping tools, electricians can handle wires and cables in line with all the applicable regulations and down to the millimetre. In this way, whether private houses, factory roofs or photovoltaic installations, they all become clean and safe players in the transition to renewable energy sources.
